Public Comments Included:

Dierdre Frank voiced her concerns about the need for more communication and the need for more frequent meetings of our Board and/or committees.

The Board is aware of the need for more communication with residents and stated that is the reason for requesting new volunteers for committee work.

Ben raised concerns about air and soil pollution from the airport. Leaks have gone underground to 3300 feet near Seaview Estates. Deirdre suggested bringing it to the INCO.

The current members of the Board are tasked with the communication concerns of the residents and look forward to improving many of these concerns and needs. We also look forward to gratefully accepting volunteer work offered by members.
